Capital Football is preparing videoconference facilities to enable meetings and stakeholder training to continue during the temporary suspension of football activities. We will be in contact if you have a meeting or stakeholder training scheduled during this time.

We appreciate that club committees will need to meet to plan for football during and after football's temporary suspension. Capital Football strongly advises that all club committee meetings take place via teleconference until 14 April 2020. We are actively investigating ways to assist clubs with this.

Capital Football will also contact members in the coming days regarding the Annual General Meeting scheduled for 6 April 2020.
